

Welcome to the 1st Newsletter of the GUARDIANS Project!

Introduction to GUARDIANS

Guardians is an Erasmus+ funded project that focuses on enhancing global competence in healthcare education and driving positive change in the industry. Our primary goal is to equip healthcare workers and educators with the necessary skills and knowledge to deliver high-quality care and promote universal health coverage by aligning with the WHO Framework. The project brings together a consortium of 6 partners from France, Portugal, Ireland, Belgium, Cyprus, and Germany, whose expertise in creating innovative training programmes will help us to deliver valuable resources for healthcare professionals throughout Europe.

Transnational Partner Meeting – Ireland

In February 2024, Future in Perspective in Ireland hosted project partners from France and Cyprus for a two-day meeting as part of the Guardians project. The first day saw FIP engaging with the entire project team, with partners from Portugal, Belgium, and Germany joining remotely. The second day involved collaborative workshops to evaluate the project's impact.

Project Outputs

Our project will deliver a MOOC on Developing Global Competence (WHO Framework). MOOC stands for Massive Open Online Course, and it will comprise both introductory, and competency-based modules that will equip learners with the skills needed to navigate the complex healthcare landscape.

Furthermore, we will develop a Global Competence Coaching Toolkit that will support adult and healthcare educators to deepen their understanding of diverse healthcare challenges and enhance communication across cultures. Through this toolkit, learners will learn to take proactive steps towards sustainable healthcare practices while elevating their professional skills, paving the way for improved patient care and global collaboration.
