

Project SDG NAVIGATOR – Empowering changemakers towards sustainability
OBJECTIVE:

The main goal of the SDG NAVIGATOR project is to raise individuals' capacity to act as true agents of change for sustainability, reinforcing their social and eco-entrepreneurial mindset and skillset through innovative, future-oriented VET training.

PROJECT RESULTS:

- 1) a Sustainability Changemaker Competences Dictionary that maps and expands on key competences for sustainability-driven entrepreneurship described in terms of knowledge, skills, and attitudes;
- 2) a Sustainability NAVIGATOR Learning Path that provides individuals with learning resources and changemaking tools to strengthen their sustainability-oriented entrepreneurial competences and guide them through the entrepreneurial process and diverse stages, amplifying and broadcasting their impact;
- 3) the SDG NAVIGATOR Hub and Toolbox that offer an online open-access platform with learning resources and complementary learning and exploration paths on sustainability entrepreneurship, enabling personalised and action-oriented approaches to learning.

TARGET GROUP:

- 1) VET learners, including all individuals interested in sustainability-related topics,
- 2) VET providers, and
- 3) business entrepreneurs and intrapreneurs.

The project will additionally target other educators, consultants, and relevant stakeholders leading sustainable development initiatives at the local and national level in the participant countries, especially those trying to raise individuals' participation and accountability in this collective call-out.
