Climate change needs behaviour change

TAKE IT is a project cofunded by Erasmus+ Programme of the European Union, the project aims to empower individual, to boost voluntary action and help people through the transition so they understand climate change, and take appropriate adaptation action. Develop a culture of change and sustainability, creating the background for effective climate change education to boost behavioural change and better adaptation to our changing world, upskill the educators with science and social-based competences that has the required impacts in how they can empower individuals and drive appropriate climate adaptation action are the main operational aims of the project.

10 Partners from 9 countries want to explore how education can be used to assist voluntary action and help people and organisations through the transition to understand and enhance climate change in everyday life. The project will run during 36 months, from 1 September 2019 until 31 August 2022.

How can you know about our developments and progress?

Visit TAKE-IT (takeit-project.eu) where you will find all our materials which can help educators as well as give an insight to all those interested about Climate change. Should you be an adult educator, we are preparing and testing training materials, tools and methods to support you in your teaching. You will be able to find on our website ways of raising awareness about climate change and green topics in general, tips in designing effective training contents, alongside tools and methods to use in your teaching/training activities.

You can also follow us on Facebook for updated news on the project @TAKEitClimateChange/

Project Products

O1-TAKE IT step framework:

The aim of this output is to develop a step-by-step framework based on real-world education to boost appropriate climate adaptation action. Responding to the issues and challenges of effective climate change education, this framework will help institutions involved in adult education to boost behavioural change and better support individuals to adapt to our changing world.

O2 - TAKE IT CPD programme

The aim of this output is to design a bespoke and flexible continuous professional development programme designed to upskill adult educators on climate change adaptation issues. CPD will offer a circular learning path reflecting the specific training needs of the educators and will equip them with modules guidance, tutorials, practical tips, useful reading etc.

O3 - TAKE IT MOOC

A Massive Open On-line Course. The aim of the TAKE IT MOOC is to support adult learners and individuals to adapt their behaviours, attitudes, and habits so that they can address climate change, through their personal and professional activities. The educational resources presented through the MOOC will first support adult learners to fully understand and appreciate the climate change crisis we are currently facing, and will then support them to realise the changes and adaptations that they can make in their own lives, for the betterment of the climate, and then to action these adaptations in their daily lives.

O4 - TAKE IT digital learning hub:

a multilingual learning portal offering open and instant access to learning contents. It is structured in three main areas: 1) TAKE IT step framework, using infographics to offer a step-by-step guidance 2) the eLearning for the delivery of the CPD programme and the massive open online course 3) and the public forum, in a format of a newsgroup.
