

Transversal Model for Migrants

TRANSVERSAL MODEL FOR MIGRANTS PROJECT NEWSLETTER 3 – PILOTING OF INTELLECTUAL OUTPUTS

In the framework of the project “Transversal Model for Migrants”, the Intellectual Outputs IO2, IO3, IO4 and IO5 have been developed and are ready to be piloted. In particular, the Training Curriculum (IO2), the Migrants’ Toolbox (IO3), the Training of Trainers Guidebook (IO4) and the Training Platform and App (IO5) will be presented to the project’s target groups during One-day workshops that will take place in each partner country in February 2020. During the workshops, the participants will become acquainted with the project’s Intellectual Outputs and the free online learning platform, and have the opportunity to participate in some interesting online and offline learning activities.

Afterwards, the Intellectual Outputs will be tested by trainers and migrants in France, Greece, Cyprus, Portugal, Bulgaria, Spain and Turkey, in order for the project partners to receive constructive feedback and suggestions for the further development and expansion of the IOs. The target groups include individuals with a migratory background, as well as trainers, coaches, VET educators and social workers, who are supporting migrants in their effort to be integrated in education and labour market.
