# KEY PRINCIPLES

The basis for the development of this production is the Bullet Journal developed by Caroll Ryder which follows these key principles:

- A modular concept grouping together task list, logbook and agenda including a goaltracking system.
- An analog approach with the codes of the digital world.
- A task migration concept to assess their relevance and manage priorities.

# ABOUT bEUjo+

**bEUjo+ Erasmus+ is developing a common project management tool which also acts as a learning tool.**

Our objective is to equip European Erasmus+ project managers for growth and better performance. We offer a common, flexible and transversal project monitoring tool for new project managers that will enable peer training.

bEUjo+ aims to strengthen the organizational capacities of leading organizations and partners of European projects and to strengthen learning capacities at the workplace in European project management.
